EC No. 233-069-2 CAS No.10028-15-6

The Biocidal Products Regulation (EU) 528/2012 (BPR) came into force on 1 September 2013 repealing the Biocidal Product Directive (Directive 98/8/EC). From 1 September 2013, Ozone is regulated as an "Active Substance" under the BPR.

Following Active Substance approval under the BPR, any Company that wishes to place a biocidal product on the market which contains ozone generated in-situ within the EU or EFTA must have its product authorised in accordance with the BPR. This process first requires a dossier on the active substance or a Letter of Access to an "Active Substance" dossier from a dossier owner in respect of Ozone and thereafter a specific application for each product to be Authorised for sale and use within the EU or EFTA. Companies without such a letters of access cannot support their products for future Authorisation.

Details of the BPR can be found on the European Chemicals Agency (ECHA) website:
